# Background Leading to this Inquiry

Nicholson Elementary was in need of an updated School Wide Instructional Model (SWIM).

- ❖ Nicholson Elementary is a Level 1 Marzano school and working through Level 2.
- ❖ Alignment of the what Nicholson staff value most in regards to instruction and our SWIM
- ❖ Several new teachers joined the Nicholson team.

# Purpose of This Inquiry

**Purpose of this inquiry is to impact student learning and classroom instruction by developing an updated SWIM model.**

# Our Wondering

**With this purpose, we wondered if developing a updated SWIM based on the Marzano 43 Elements, can we increase student performance.**

# Our Actions

- ❖ Reviewed the 43 Elements from Marzano
- ❖ Each teacher completed the individual survey
- ❖ Leadership team reviewed results – identifying the elements most valued by staff
- ❖ List of most valued elements were shared in staff with the goal to reduce the list to the 10 most impactful for student growth
- ❖ Leadership team used results to create the updated SWIM
